

PRESS RELEASE JANUARY 2010

RUNTAL PUZZLE: THE RADIATOR THAT IS ALSO A CHALKBOARD DESIGNER RADIATOR WITH CREATIVE FEATURES

RUNTAL PUZZLE is a radiator that is both modern and creative. It adds a playful touch to the everyday and its chalkboard-like features make it a focal point for the whole family.

The name says it all: the RUNTAL PUZZLE radiator is made up of various elements. The modern design of RUNTAL PUZZLE, which at first glance doesn't seem like a radiator but a permanent fixture, attracts particular attention. The individual elements, which thanks to a special coating can also serve as a chalkboard, can equally be used to write a shopping list in the kitchen or as a toy in the playroom. Giovanni Suma, Brand Manager at Runtal, explains: "You can write or draw on the individual elements with chalk and then clean them again with a damp cloth or sponge, just like a real chalkboard."

VERSATILE AND INDIVIDUAL

As well as its decorative and practical side, RUNTAL PUZZLE offers great individuality and scope for numerous combinations. Firstly, you can combine a number of elements up to a maximum height of 1641 mm and, secondly, the elements are available in two different lengths (500 mm or 600 mm).

The chrome-plated steel or powder-coated titanium tubes allow users to hang up hand or bath towels without them having to pass awkwardly through recesses. If required, the individual elements can also be easily removed. RUNTAL PUZZLE can be connected to the central heating or operated electrically and has a programmable infrared control unit with electronic room thermostat. Besides first-class design, however, you can count on the Runtal brand for cutting-edge technology, excellent service and a comprehensive product range.

UNMISTAKABLE LANGUAGE OF DESIGN

The award-winning design from renowned designer Claudio Colucci shows how heating can be relaxed and playful. Claudio Colucci is a well-known interior designer, who describes his style as a mix of fun, humour, colours and sensuality. "My work is always characterised by stories, which form the basis for new projects," he says of his sources of inspiration. Runtal received the Comfort & Design Award for the RUNTAL PUZZLE at the Mostra Convegno 2008 in Milan, a leading international trade fair for heating and air conditioning systems. RUNTAL PUZZLE has also been honoured by the Associazione Culturale Plana with its Grandesign Etico International Award 2008.
