# RUNTAL HOT HOOP

PAUL PRIESTMAN

**runtal**

**RUNTAL HOT HOOP.** Form and function come full circle. A radiator that combines a bold statement with all-round elegance. A closer look reveals the intelligent construction: elliptical stainless steel tubes curving seamlessly to form an aesthetically pleasing circle. Continuing in a spiral, they sit closely together to create a compact radiator that also warms your towels. RUNTAL HOT HOOP is the perfect addition to any modern bathroom, and also makes a striking contrast in a more traditional ambience. In the masterful hands of designer Paul Priestman, form and function come full circle.

## RUNTAL HOT HOOP PAUL PRIESTMAN

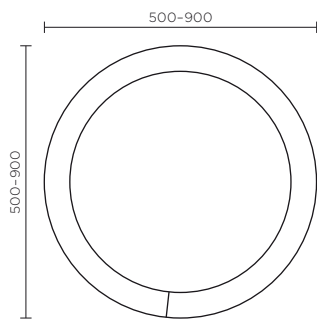

Paul Priestman is an industrial designer and the founder and director of the world-famous London design agency Priestmangoode. For around 25 years his work has been setting standards in transport, environmental and product design. Priestmangoode has created sophisticated and distinctive design solutions for leading companies including Airbus, Virgin Atlantic Airways, Accor Hotels and British Telecom. Paul Priestman is also a respected lecturer and consultant who serves on a number of committees. In recognition of his expertise, he was appointed to the Council of the Royal College of Art.

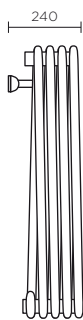

In addition to RUNTAL HOT HOOP, Paul Priestman designed the multi-award-winning radiator RUNTAL SPIRALE, which can be seen in the Philadelphia Museum of Modern Art.

## PRODUCT DESCRIPTION

RUNTAL HOT HOOP is a contemporary radiator made of stainless steel with a distinctive, compact spiral construction. The continuous elliptical tubes form a powerful heating ring that also serves as a practical towel holder. The radiator is a generous 24 centimetres deep, allowing towels to be hung from the ring to dry or placed inside to warm. The RUNTAL HOT HOOP is connected to the central heating system and is available in three different sizes. It can be finished with a white or metallic powder coat or in mirror-polished stainless steel.

## TECHNICAL DATA

Name	HHR
Height	500/700/900 mm
Width	500/700/900 mm
Connections	For central heating, 2x½" for flow, return, air vent
Colour	Powder-coated surface available in white (RAL 9016)/metallic and mirror-polished stainless steel
Heat output	381/534/686 W
Standard	<b>CE</b>
