
RUNTAL SETSQUARE

PIETRO SECURO & MARIO TALIN

runtal

RUNTAL SETSQUARE. Design squared. This is a radiator of aesthetic clarity and exceptional presence. The construction of quadratic steel elements makes a powerful, dominant statement. RUNTAL SETSQUARE reinterprets familiar industrial aesthetics with a stylistic nod to a contemporary language of form. It also features a sophisticated detail: perforated caps sealing each individual square tube. Designed to be variable, the system provides an efficient heating solution in almost any setting and integrates harmoniously into a modern ambience. RUNTAL SETSQUARE. Striking design from Pietro Securo and Mario Talin.

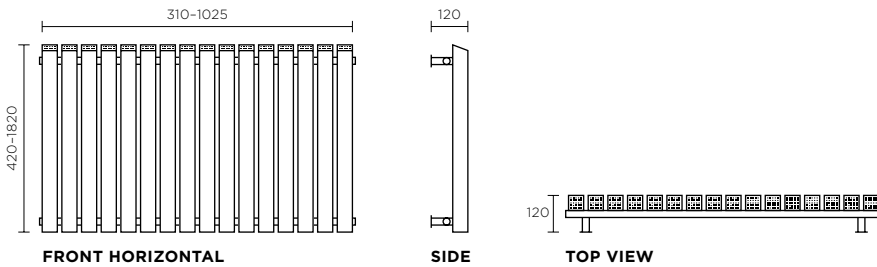

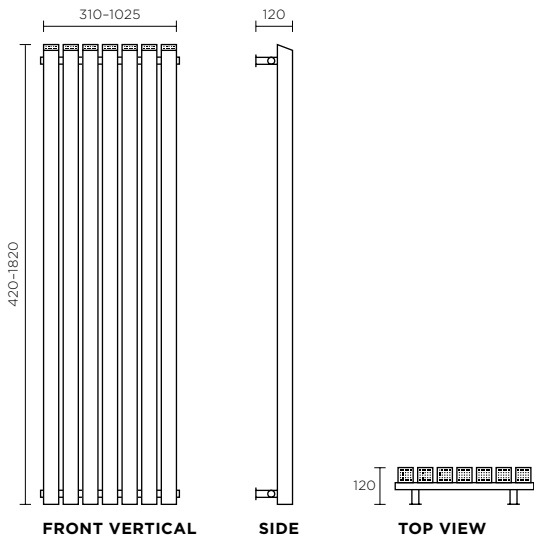

RUNTAL SETSQUARE PIETRO SECURO & MARIO TALIN

The innovative radiator concept RUNTAL SET-SQUARE is the result of a collaboration between Italian designers Pietro Securo and Mario Talin. Pietro Securo (born 1944) is a mechanical engineer with special expertise in research, design and technology. Mario Talin (born 1950) also has a background in industrial technology, specialising in the development of radiators and internationally renowned for his metal furniture designs.

For Runtal, the duo developed not only RUNTAL SETSQUARE but also RUNTAL SETA — a variation on the concept that utilises round elements.

TECHNICAL SPECIFICATIONS

PRODUCT DESCRIPTION

Robust steel tubes in a revolutionary quadratic form are cut slantwise and given a perforated top face — the perfect designer radiator for installation beneath a window or as an eye-catching feature that radiates a pleasant warmth. Whether vertical or horizontal, RUNTAL SETSQUARE can be flexibly adapted to the room, and at just 420 mm high it also fits neatly under a window. RUNTAL SETSQUARE is equipped with a central heating connection and is powder-coated in one of three timeless colours: white, metallic and elegant matt black.

TECHNICAL DATA

Name	SETSQUARE
Height	420/620/1520/1820 mm
Width	310/440/635/830/1025 mm with 5/7/10/13/16 elements
Connections	For central heating, 2x½" side connections for flow, return, air vent
Valves	See accessories and valves catalogue
Colour	Powder-coated, available in white (RAL 9016), metallic, matt black
Heat output Standard	573-1353 W CE
