
RUNTAL SPLASH

CHRISTIAN GHION

runtal

RUNTAL SPLASH. A beautiful objet d'art. Or so you might think, because this wall-mounted object does not immediately reveal its true function. Until you touch the surface and feel the warmth radiating out from it. Then you realize that this art work is in fact a room heater. And your surprise had not come about by mere chance: this product is the outcome of artistic inspiration associated with years of material research. Corian® is the name of the material which has enabled Runtal to develop a new formal language for the design of its room heaters. The theme of concentric circles styled by Christian Ghion is reminiscent of a drop of water which causes gentle waves to radiate out when it hits the surface. Waves of water for the eye. But behind them waves of warmth. Rest and movement inspired by the art of zen.

RUNTAL SPLASH CHRISTIAN GHION

RUNTAL SPLASH CHRISTIAN GHION

RUNTAL SPLASH is Christian Ghion's first room heater for Runtal. Born in 1958 at Montmorency/France, Christian Ghion decided to study design after taking a degree in law. He graduated in 1987 from the Ecole Nationale Supérieure de la création industrielle (ENSCI) and went on to win the "Grand Prix de la création de la ville de Paris" in 1990 — since then Christian Ghion has been working for prestigious furniture manufacturers (including Cappellini, Driade, Salviati, Ventura, Sawaya & Moroni).

His works can now be admired in the Guggenheim Museum New York, the Musée des Arts Décoratifs and the Centre Georges Pompidou in Paris; they all share a design language which imparts meaning and emotion to their distinctive simplicity.

RUNTAL SPLASH, the radiator designed by Christian Ghion, won the 2010 "Red Dot Award" for outstanding product design and the 2011 Interior Innovation Award and has been nominated for the German Design Award.

CONTROL UNIT

PRODUCT DESCRIPTION

The innovative RUNTAL SPLASH designer radiator comprises a decorative Corian® front and a supporting structure in expanded natural graphite. The electrically operated heating elements embedded in the graphite layer ensure fast and uniform heat distribution – and the necessary 750 watt heating power. RUNTAL SPLASH is adjusted by a programmable control unit.

CORIAN® BY DUPONT™

DuPont™ Corian® is a material developed and manufactured exclusively by the DuPont de Nemours company. A resistant and extremely durable material, it opens up infinite design possibilities. An acrylic-bonded mineral material, DuPont™ Corian® is widely used for its exceptional aesthetic and practical qualities in residential housing, healthcare, catering, public and commercial spaces and also in furnishing, lighting and decoration. This is a composite non-porous material which is stain resistant, easy to maintain and durable; renewal and even repair are possible.

TECHNICAL DATA

Designation	SPAE-120-075/BF (without plug) SPAE-120-075/BP (with plug)
Dimensions	1230 x 750 x 78 mm
Weight	30 kg
Heating power	750 watts
Front colour	Corian®, Glacier White
Frame colour	RAL 9016
Mains voltage	230 volts
Protection class	IP 44
Plug	As required, with 2 pin europlug or without plug
